NOTICE!!

POWER RATION

KAJUR regrets to inform all customers with a power ration that will affect the whole of Ebeye. Our fuel delivery schedule has been affected and delayed due to Container Ships operation at the main dock in Delap Majuro where we normally receive fuel into fuel ships.

Due to fuel delivery being delayed, we have no choice but to ration power to conserve what fuel we have left till fuel arrives from Majuro.

There is no confirmation of fuel delivery as of today (April 21, 2021) therefore KAJUR has calculated amount of fuel left and scheduled power rationing accordingly for Thursday and Friday. Power Rationing will be in effect until further notice.
